

Access codes for Career Conversations

Last Modified on 03/10/2021 3:13 pm EST

Eligible Corporate Partners receive a number of passes for HBA's career advancement and professional development webinar series, Career Conversations, to attend live. Each eligible company is provided a promotion code which can be given to employees to register for the events at no cost. These codes are provided as the events open and are accessible to the CP key contacts via the Corporate Partner Portal. Four webinars are held per year and more information about the series can be found [here](#).

Other CPs have access to the current year's *prerecorded* Career Conversations webinars, which are shared via email a week after the live webinar.
