

# Purple+ Companies (inc webpages and graphics)

Last Modified on 07/01/2024 11:43 am EDT

HBA Purple Corporate Partners can add an *Unlimited Designee Enhancement* to their partnership - we call the companies who purchase this option **Purple+ Partners**. When a company purchases the enhancement, HBA will provide a promo code that all employees can use to join the HBA as a **designee member**.

Current companies that have purchased this enhancement are:

- Pfizer
- Takeda
- Novartis
- Eli Lilly
- Otsuka
- BMS - *company-specific requirement*: those wishing to receive a designee code must first join BNOW (BMS' internal women's network)
- Bayer
- Johnson & Johnson
- Daiichi Sankyo

HBA has created custom graphics, web pages, and email campaigns for the companies that have purchased this enhancement to ensure their employees can most easily take advantage of the opportunity and engage with HBA.

As new companies purchase this enhancement and as they formally approve their materials, HBA will save them here so our chapters, regions, and leaders can use them as needed to get people involved. *Note: if you know a company has purchased the Purple+ enhancement, but their materials are not below, it is because they have not yet approved their materials to go live. Please share the company web pages rather than just the code when web pages are listed.*
