

Editing a Video

Last Modified on 05/11/2023 11:47 am EDT

Start in any video, in the video manager

1. *Click the details icon (located under said video)*

Details

This provides an overview of the video details, such as title and description, but also the technical information, such as size and duration

2. *Click "Edit Video Details" button to make adjustment to the video details*

3. *Input your desired information such as Title, short description acknowledgement of creator, and long description*

Note: *'Video Description' is short, and used for social media. 'Video Long Description' is utilized to provide rich detail of video on play landing page*

Your browser does not support HTML5 video.
