

Virtual Events

Last Modified on 01/23/2024 11:06 am EST

While we love to get together in person, virtual events also exhibit many virtues. Virtual events provide opportunities for connection for our vast global geographies, especially as HBA continues to grow to new locations. It also makes participating in our events easily accessible from your office, home, etc.

Career Conversations is an annual, quarterly series of webinars exploring how leaders can leverage constructive disruption to advance women in the business of healthcare and promote global health equity. Executives will share inspiring strategies to break barriers and encourage leaders at all levels to challenge practices that hinder inclusive leadership. Join us to spark positive change in your leadership journey today. The webinars can be purchased individually or as a series.

HBA members receive free or significantly discounted access to:

- HBA's quarterly Career Conversations webinar series
 - Select on-demand past virtual educational offerings
 - HBA locations, regions, and affinity group-hosted virtual networking and educational events
 - Annual 'days of programming' focused on global celebrations such as International Women's Day
-
