

My sponsor and/or company logo for an event is incorrect. Can you update it?

Last Modified on 12/12/2024 11:26 am EST

No, only the account holder who uploaded the logo has the ability to edit and upload a new one. We recommend contacting the company directly to make updates. In addition, you can request a logo be added to our library by following the prompts in the event set-up profile. Please note that the events team is unable to add and/or edit any logos as it is not managed by our department.
