

Ambassador Program

Last Modified on 05/18/2026 2:27 pm EDT

The HBA Ambassador Program helps Corporate Partners* accelerate their emerging talent pool's development, advancement, diversification, and visibility. It also aids talent retention through ongoing leadership training.

This 12-month leadership development opportunity brings together an internal task force of 15-30 employees focused on individual development goals and impactful group initiatives for your organization.

The program is self-directed, customizable to corporate goals, develops a motivated and engaged HBA community within your company, collaborates with and enhances existing employee resource groups, and provides access to HBA's global community.

HBA's Global Ambassador Program Committee of 100+ trained volunteers will work with your organization to develop, launch, and operate your company's program. Learn more today at HBA.net.org/the-hba-ambassador-program
