

# Global Ascension Leadership Experience.

Last Modified on 05/06/2026 12:33 pm EDT

## Global Ascension Leadership Experience

The Global Ascension Leadership Experience is not just an event - it's a unique opportunity for leaders shaping the future of life sciences and healthcare. Across two immersive days, leaders step back from day-to-day demands to engage in forward-looking learning, intentional connection, and honest dialogue about what it truly takes to build organizations where people and performance thrive.

Additionally, we pause to honor and celebrate the following leaders and companies:

- Woman of the Year
- Honorable Mentor
- STAR
- Rising Stars
- Luminaries
- Global Impact (Company Award)

### Why Global Ascension Leadership Experience

Leadership today demands more clarity, resilience, and the ability to lead through complexity without losing momentum or people along the way. Yet few experiences offer the time, access, and perspective needed to engage deeply with how leadership actually works in practice.

**The Global Ascension Leadership Experience** creates that space.

Designed for leaders across biotech, biopharma, medtech, digital health, research, and healthcare, the Global Ascension Leadership Experience blends future-focused education, real-world leadership insight, and meaningful peer connection, all grounded in the realities leaders face every day.
