

Access Codes for Career Conversations

Last Modified on 05/15/2026 3:02 pm EDT

Eligible Corporate Partners receive a number of passes for HBA's career advancement and professional development webinar series, Career Conversations, to attend live. Each eligible company is provided a promotion code which can be given to employees to register for the events at no cost. These codes are provided as the events open and are accessible to the CP key contacts via the Corporate Partner Portal. Four webinars are held per year and more information about the series can be found [here](#).
