How to Change Notification Settings

Last Modified on 10/14/2026 10:51 am EDT

1. To update your communication preferences from the community directly, click the "settings" button next to the community name and choose your preference from the drop-down under "email notifications":

2. Or, to update communication preferences for all your communities at once, click here. You can locate this link in your 'Quick Links' tab to the right of the homepage.
