

CP Locations

Last Modified on 07/07/2025 11:14 am EDT

Within the **HBA Corporate Partner Information Module** there exists the ability for member leaders, CP key contacts, and HBA staff to add addresses and site-specific contacts for specific Corporate Partner sites. This data is saved in the HBA's database, and all the site/location data collected results in a CRM-like tool for leaders now and in the future to ease and aid engagement across a company's locations.

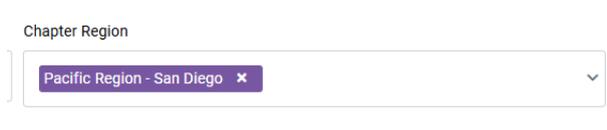

The primary workflows for CP location **SEARCHING** (by region and for HQ sites) and **ADDING** locations and points of contact are listed below. Or [CP-POC Entry Workflows ML-AM.docx](#) .

Searching for Corporate Partner locations by region

Description: Completing this workflow will provide the user with CP's satellite locations in the region of interest and point of contact information.

- Log in to HBA
- Select - HBA Corporate Partner Information on left vertical toolbar
- **Corporate Partner Locations**

- Chapter Region - Select Region by typing first 3 characters or using dropdown

The screenshot shows a dropdown menu titled "Chapter Region". The selected option is "Pacific Region - San Diego", which is displayed in a purple box with a small 'x' icon to its right. A small downward arrow is visible on the right side of the dropdown box.

- Once the region or regions have been populated, select search
- Satellite Locations of Corporate Partners, along with primary contact info will be displayed

Searching for Corporate Partner HQ locations by region

Description: Completing this workflow will provide the user with CP's headquarter locations in the region of interest.

- Login to HBA

- Select - HBA Corporate Partner Information on left vertical toolbar
- **HBA Corporate Partner Search**

HBA Corporate Partners

Please begin by searching for the Corporate Partner parent company or by any other desired parameters and click search.

Company Name	Corporate Partner Level (Influencer, Purple, Gold and Silver)
<input type="text"/>	<input type="text"/>
Country	Chapter Region
<input type="text"/>	<input type="text"/>

SEARCH CLEAR FILTERS

- Chapter Region - Select Region by typing first 3 characters or using dropdown
