

HBA Central account management

Last Modified on 05/25/2026 2:17 pm EDT

HBA Corporate Partner companies are assigned a staff account manager when they sign on. Assignments are made by HBA Central - satisfaction and challenges can be raised as needed.

These account managers work to build the global relationship with each of their assigned companies, including ensuring benefits fulfillment, working on global engagement strategies, and more.

An updated list of current Corporate Partner companies with their HQ region with their assigned HBA account manager, is uploaded to the Corporate Relations Community library on a monthly basis and is accessible only to our CR member leaders.
